

## **FTP**

### **Live FTP transmission**

2 images prior to the game, 5-7 images between periods, and any number of game-specific (not stock) images

**TEST IMAGE** You **MUST** send a test image and have it **APPROVED** by the picture desk prior to transmitting game images.

Host: ftp.newsandsport.gettyimages.com

Logon: sportphoto

Pass: g3ttySp0rtPh0t0

**LIVE TRANSMITS** Send to the direct ingest address (feedsftp.gettyimages.com). If you do not have logon information, contact Mike Lawrie at Getty Images.  
[michael.lawrie@gettyimages.com](mailto:michael.lawrie@gettyimages.com)

Last Resort: E-mail images to the picture desk (Use **ONLY** if FTP isn't working)  
[upload@gettyimages.com](mailto:upload@gettyimages.com) NOTE: Any message left in the image header will NOT be read. You **MUST** notify the desk that you are e-mailing images and they must be sent as attachments and not as embedded files.

Use Slack Messenger (NY Picture Desk) or phone 646-613-3741 or email  
[nypicturedesk@gettyimages.com](mailto:nypicturedesk@gettyimages.com) to communicate with the desk.

### **NON-LIVE Content (Seconds)**

Anything transmitted more than FOUR hours following an event must be sent in via Getty Images ESP site <https://esp.gettyimages.com> using the team specific logon that you have been given. If you do not have a logon for ESP, contact Mike Lawrie at Getty Images.  
[michael.lawrie@gettyimages.com](mailto:michael.lawrie@gettyimages.com). Non-Live Edit (Should be sent within 5 days)

**FOCUS** Getty Images photographers have largely moved to using proprietary software called FOCUS. This replaces previously used software Photo Mechanic and GIFT. This software provides easy toggles for transmitting tests, live imagery and non-live photography and provides improved functionality to accomplish all editing tasks. To sample this software, contact [michael.lawrie@gettyimages.com](mailto:michael.lawrie@gettyimages.com)
